

LIST OF NOTARIES

Please note that this list is intended to be a helpful resource only; you do **not** need to choose a notary from this list. However, whatever notary you do choose, they must be a certified notary.

FREE NOTARY OPTIONS

There are several free notary options that you can take advantage of. Many public libraries offer free notary services to their patrons, and most banks offer notary services for free to their members. Check with your local library or bank to see what free notary services they provide, their hours of availability, and whether you need to book an appointment. Other places that may offer complimentary notary services include courthouses, local AAA branch offices if you are a member, and universities if you are an enrolled student.

PAID NOTARY OPTIONS

Nevada allows both online and in-person notaries. We've listed both options below.

ONLINE NOTARY

An online notary allows you to have your document notarized online rather than in-person. The process consists of uploading the document that you need notarized, uploading your ID, driver license or passport, and doing a video call with the notary to sign the document. You must have access to a microphone and camera on the device you are using.

IN-PERSON NOTARIES

We've listed in-person notary options below for several cities. Some locations may require you to make an appointment. Please check the business hours of the notary location you choose and contact them ahead of time to see if an appointment is needed. You will need to bring with you the document that you want to have notarized as well as an official photo ID, such as a driver license or passport.

City	Notary Information
